

KRISTINE T. MILLER

**Vice President of Business Operations
Aurora Flight Sciences Corporation**

Ms. Miller is responsible for strategic planning and execution of shared services for Aurora's four locations. Shared services include human resources, facilities, MIS/IT, security, export control, corporate communications, educational & public outreach, and corporate flight operations. In addition the General Managers in VA and MA directly report to her. Since joining the organization in 1994, Ms. Miller has been responsible for human and capital resources planning to support the company's growth both organically and through acquisition.

In 1999 she led activities to establish an international joint venture and subsequently a successful acquisition in 2000 that doubled the company size. Ms. Miller led the green field activities to start an operation in Columbus, Mississippi in 2005 and an R&D center in Cambridge, Massachusetts in 2006.

Ms. Miller joined Aurora in 1994 as Director of Administration after ten years industry experience working with government contractors BDM International and Comprehensive Technologies International, Inc. She holds a BS in Business Administration from George Mason University and an MBA from George Washington University.
