

## **DAN BRADY**

### **Vice President of Production Programs Aurora Flight Sciences Corporation**

Mr. Brady joined Aurora in June 2007 from Vought Aircraft Industries where he was Director of Global Supply Chain Management and previously Director of Boeing and Bell Military Programs.

At Aurora he is responsible for the profit and loss of the Production business sector. His daily responsibilities include overall program development and program execution which includes the oversight of component production for prime contractors such as Northrop

Grumman for the aft fuselage, nacelles and V-tails for the Global Hawk and BAMS aircraft, and Sikorsky Aircraft for the main rotor pylon of the CH-53K heavy-lift helicopter, the sonobuoy launcher for MH-60R, and doors for the S-92.

Mr. Brady has over 30 years of experience managing military and commercial aircraft programs incorporating a broad range of activities including development and implementation of business unit strategy, global supply chain management, business management, international experience in supplier management, contract negotiations, and teaming. In 1996, he was appointed Northrop Grumman's Commercial Aircraft Division Leader for the Program Management Center of Excellence Initiative. Mr. Brady holds a Bachelor of Sciences in Aeronautical Engineering from Purdue University and a Master of Business Administration from the C.W. Post Center, Long Island University.
